EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: at the beginning of line 2^{of page 1} of the specification add: "**, now US patent number 6,699,766,**"

Claim Rejections – Double Patenting

Rejections of claims 12-15 are withdrawn because U.S. Patent No. 6,699,766 can not be applied as a reference since it is a divisional containing previously restricted claims, as noted in applicants remarks, dated 25, January 2006.

Reasons for Allowance

Claims 12-16 are allowable over prior art of record.

Claim 16, based on generic claim 12, is rejoined and allowable over prior art of record.

Claims 12-16 are allowed in view of the withdrawal of the previous obviousness double patenting rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Remarks

Applicants' arguments on page 6, filed on 25 January 2006, are persuasive with respect to the fact that the present application is a divisional application of application number 10/185,537 (currently U.S. Patent No. 6,699,766) therefore U.S. Patent No. 6,699,766 does not constitute prior reference.
